

Important information regarding the OSF project: Stockholm school data analysis project.

Project:

The *Stockholm school data analysis project* is a research project registered at the Open Science Framework (OSF). The project website is accessible from: <https://osf.io/9nru6/>

Project components:

The *Stockholm school data analysis project* contains other components (subprojects) at OSF. Components include, for example, secondary analyses of collected data.

Copyright (No license):

Data accessibility restrictions

Accessibility restrictions apply to all data files stored in the OSF project. Due to the sensitive nature of the data collected within this project, and lack of ethical approval for data sharing, the data cannot be used for research outside Karolinska Institutet and Region Stockholm Healthcare services, unless additional ethical approval is obtained by Karolinska Institutet or Region Stockholm Healthcare services. The original data collection was conducted in accordance with the Declaration of Helsinki and was ethically approved by the regional ethics committee in Stockholm (diary number: 2016/2175-31/5). Any data files listed under the *Stockholm school data analysis project*, or any of its subprojects, may therefore not be downloaded, used, or distributed, without permission.

Data access requests

Data requests from researchers who meet the criteria for accessing the data (see section: Data accessibility restrictions) may be sent to the National Centre for Suicide Research and Prevention (NASP). Access requests may be sent to the copyright holder (NASP) via the OSF platform.
